Westlake Village City Council  
VIA EMAIL

RE: Solid Waste Collection Services Franchise Agreement

Dear Westlake Village City Council:

To ensure that your constituents get the best rates, value, services, and environmentally compliant programs, we highly recommend the City of Westlake Village pursue a fair and transparent competitive bid process. This 10-year contract is one of the most important that you will negotiate, and one that requires the analysis of multiple proposals.

Our team has followed your public meetings related to the solid waste franchise agreement over the last several months. We watched the Environmental Committee meetings and also attended the City Council Study Session.

During the Environmental Committee and Study Session meetings, we have heard concerns about the financial analysis provided to the city by the current hauler as it relates to residential rates and commercial exclusivity. The city was told residential rates would decrease but only if the current hauler was granted the exclusive right to service commercial accounts. We also learned that over 1000 residents living in HOAs would actually experience a significant rate increase as the result of paying different rates than other residential customers for an unknown reason and for an unknown number of years.

As you know, the city of Thousand Oaks recently selected Athens Services as their solid waste and recycling partner after an extensive RFP process. They were able to analyze and compare the rates, services, programs, customer service, and community involvement of multiple haulers and determined Athens Services was the best service provider for their city. We have successfully transitioned into the city and are proud to say Thousand Oaks is the first city in Ventura County to implement a green waste recycling program to all residents and businesses, in compliance with California's landmark organics recycling law, SB 1383.

The city of Westlake Village deserves to know if they are getting the best value, rates, and a long-term community partner they can trust. Initiating a competitive bid process is the only way to truly determine that.

Sincerely,

*Rondi Guthrie*

Rondi Guthrie  
Vice President of Government Affairs

***Athens Services is a local, family-owned waste collection and recycling company that has been a fixture in the greater Los Angeles community for the past 60 years. We provide innovative, consistent, and quality environmental services to our more than 2 million customers in the 50+ communities we serve. Through reuse, recycling, and composting, Athens diverts valuable resources from landfills.***
